

The program is a national initiative that provides no-cost MedicAlert services to children—between the ages four and 14—who have chronic health conditions. The goal is twofold: to help children with severe allergies, medical conditions or special needs and to assist schools with medical-emergency plans for students.

Once a child is registered, their school is provided with advice on a medical-emergency plan for that student and given a list of medications, allergies and medical conditions the student has. To learn more about the No Child Without program, visit www.nochildwithout.ca.
