

F.R. Haythorne Junior High School is pleased to offer to students *The KEY* by Castle Rock Research for all four Grade 9 core subjects. *The KEY* for Grade 9 is a resource designed to enhance a student’s textbook, classroom instruction, in-class and teacher review.

Within *The KEY* students will find a collection of multiple choice and numerical response questions pertaining to the units defined in the **program of studies** for Grade 9. These questions provide a complete set of illustrative examples of the general and specific outcomes for each unit. Also provided are complete solutions along with an analysis of all questions.

The questions in each unit provide students with an excellent source of course related material. Working through these exercises should help students reinforce the course content and identify those areas that may require more review.

We are offering each book for \$17.50. Please indicate which resource(s) you would like to purchase by putting a checkmark in the appropriate blank. Please return this form along with **cash** or a **cheque** made out to **F.R. Haythorne Junior High School**.

Please have your order in to your **Science teacher** by Wednesday April 19/2017. The books are usually available about a week later.

Sincerely,

Mr. A. Borkent
Mr. S. Boychuk
Mrs. K. Perrault

I have enclosed a cheque/cash for \$ _____ to purchase the following KEY(S):

_____ Science _____ Math _____ Language Arts _____ Social Studies

Student Name _____ Class _____
